Recruiting Review

Use "Open Ended" questions that invoke more than a yes or no response. For example, "How do you put our catholic faith into practice?" or "How do you make a difference in our community or parish?". Open ended questions provide a great chance to relate what we do as Knights to the prospect's answer. It is too easy to answer "Would you like to join the KoC?" with a simple No. Relate your council's programs to the interest of the prospect.
